01 · EXECUTIVE SUMMARY

Proposal at a Glance

We propose a **2027 Corporate Capability Programme**: role-based training for your leaders, managers and specialist teams, designed around your sector, your regulators and the goals you set for the year.

Every organisation faces two training questions each year. What new skills do our people need now that technology, threats and regulation have shifted? And how do we keep required annual training credible when the risks it covers keep changing? This proposal answers both.

Emerging needs

Courses that build the capabilities your teams need this year, from leading digital transformation and governing AI to defending against new forms of fraud.

Annual mandates

The recurring training your regulators and auditors expect, such as compliance, risk, data protection and safety, rebuilt each year so it reflects what has actually changed.

Built around you

We start with a needs assessment, then build the curriculum with your business and compliance leads. Specialist international faculty deliver it on site, remotely or as a blend, and we stay with you afterwards with refreshers and completion evidence.

PREPARED FOR
Leadership, HR and Learning & Development teams

SECTORS
Banking, government, healthcare, technology, industry, agriculture, NGOs and more

REGIONS
UAE & Africa, with delivery in seven countries

PROGRAMME YEAR
2027

PRACTICE AREAS
6, with courses across each

DURATION
Set by your goals

DELIVERY
On-site, remote or blended
Final format agreed with you

REFERENCE
IIT-CTP-GEN-2027

VALID FOR
12 months, until October 2027

Role-based curricula

Content is mapped to job function, so each cohort learns what it will actually use.

Specialist faculty

Seasoned practitioners from around the world, matched to each topic.

Our promise to you

By the end of the programme, your team is able to run it without us.

02 · WHO WE ARE

A Training Partner, Not Just a Vendor

Founded in 2022 and headquartered in Dubai, **Infinite Icon Technology** is an IT consultancy and corporate training firm built for the pace of the UAE and African markets.

We work with banks, government entities and fast-growing businesses that need their people to move as fast as their ambitions. Corporate training is one of our two practice areas, alongside IT consulting, and the two reinforce each other: we understand the systems, risks and regulations your teams work with because we design and run them for clients every day.

2022 Founded in Dubai	**7** Countries trained in	**8** Sectors served
6 Training practice areas	**2** Delivery hubs: Dubai & Addis Ababa	**ISO** 9001:2015 certified

Delegation roundtable, delivered on programme

Training session, delivered on programme

Delivered in seven countries

Turkey · Singapore · UAE · USA · Canada · Ethiopia · Sweden

Recent work includes an executive programme in Toronto, Canada for bank board members, covering governance, international banking and organisational resilience.

03 · YOUR 2027 LANDSCAPE

Why Training Matters in 2027

Across every sector we serve, the same four pressures are reshaping what people need to know. Training that stood still last year is already out of date.

AI and digital change

Leaders are being asked to approve, govern and get value from AI and digital platforms. Teams need to use them safely and well.

New threats and new fraud

Deepfakes, synthetic identities, ransomware and social engineering now target every employee, not just the IT team.

Tighter regulation

Regulators across the UAE and Africa expect evidence that training is current, role-specific and completed, not just scheduled.

Leadership and talent

Growth depends on confident managers who can execute strategy, lead change and keep good people.

Two streams, one plan

We organise every programme into two streams, so you build new capability and stay compliant through a single, coordinated calendar.

STREAM A · EMERGING YEARLY NEEDS

- New skills as technology, threats and practice shift
- Built fresh for the year and your strategy
- Typical topics: AI governance, digital transformation, fraud defence, leadership for change

STREAM B · CONSISTENT ANNUAL MANDATES

- Recurring training your regulators expect
- Core content stays; this year's developments are woven in
- Typical topics: AML/CFT, data protection, conduct, information security, safety

> ***The rule is the same every year. The threats are not. Your training has to keep pace with both.***

Our Training Portfolio

Our courses sit within six practice areas. Below are representative courses; we combine and adapt them to build your programme.

01 Leadership & Executive Presence

Building confident, visible leaders at every level, from first-line managers to the executive committee.

- Executive Leadership Presence
- Advanced Leadership: Strategy, Governance & Leadership
- Strategic Human Capital Management
- Women in Leadership
- Advanced Team Dynamism Master Class
- Diverse & Inclusive Workplace Culture

FOR Executives, senior managers, high-potential talent

02 Strategy Execution & Governance

Turning strategy into results, with the governance frameworks that keep boards and management accountable for delivery.

- Advanced Strategic Management
- Corporate Governance for Boards & Management
- AI Governance for Boards & Executives
- Board Members & Corporate Directors' Certificate
- Advanced Customer Value Proposition Master Class
- Strategy Execution & Performance Management

FOR Board members, directors, strategy and governance teams

03 Organisational Resilience & Enterprise Risk

Preparing institutions to anticipate, absorb and recover from disruption, and to detect and prevent fraud.

- Organisational Resilience
- Detecting Fraud & Improving Compliance
- Business Continuity & Crisis Management
- Enterprise Risk Management (ERM)
- Cybersecurity Threats & Data Breaches
- Deepfake & Synthetic Identity Fraud Defence

FOR Risk, compliance, audit, operations and IT leaders

Our Training Portfolio, continued

04 International Banking, Treasury & Capital Markets

The disciplines behind a financial institution's balance sheet and cross-border business.

- International Banking
- Capital Markets
- Wealth Management
- Understanding Economic & Market Structures
- Mastering Treasury Functions
- Trade Finance & Foreign Exchange
- Financial Statement Analysis, Ratios & Forecasting
- Islamic & Interest-Free Finance

FOR Treasury, finance, corporate and retail banking teams

05 Digital Transformation & Innovation

How organisations plan, lead and deliver digital change, from customer channels and operating models to a culture of innovation.

- Digital Transformation & Innovation
- Digital & Retail Business Transformation Strategy
- AI in the Workplace: Safe and Productive Use
- Digital Payments, Digital Banking & Fintech
- Retail, SME & Digital Transformation Strategy
- Data-Driven Decision Making

FOR Executives, product, operations, IT and change teams

06 Emotional Intelligence, Communication & Customer Excellence

The people skills behind strong teams and lasting client relationships.

- Emotional Intelligence for Management
- Negotiation & Conflict Resolution
- Relationship Management & High-Net-Worth Clients
- Branch Management & Teamwork
- Communication Skills for Managers
- Customer Centricity & Customer Experience
- Sales, Cross-Selling & Customer Retention
- Product Knowledge Training

FOR Managers, front-line, sales and relationship teams

Don't see what you need? We design custom courses on request, drawing on the same specialist faculty and methodology.

Built for Your Sector

Each sector track pairs our core practice areas with the specialist topics and regulations that shape your industry. Examples of what we deliver:

SECTOR	EXAMPLE COURSES
Banking & Finance	AI governance & model risk · Instant payments & scam prevention · AML/CFT annual certification · Sanctions compliance
Islamic & Interest-Free Finance	Shari'ah governance · Sukuk & Islamic capital markets · Islamic fintech · Islamic products & contracts refresher
Government & Public Sector	Public sector digital services · Strategy execution & governance · Leadership for change · Data protection
Healthcare & Pharma	Ransomware resilience & clinical downtime · AI in clinical workflows · Telehealth & virtual care · GMP / GxP refresher
Technology & Telecoms	Securing AI & LLM applications · Zero Trust & identity-first security · Incident response tabletop · Phishing resilience
Energy, Utilities & Manufacturing	OT/ICS cybersecurity for plant teams · Automation & robot safety · Carbon accounting · Fire safety & emergency action
Insurance	Process automation & risk · Fraud detection · Customer experience · Conduct & consumer protection
Logistics & Trade	Trade finance & foreign exchange · Supply chain integrity · Systems integration for operations teams
Agriculture & Agribusiness	Digital & precision agriculture · Climate-smart agriculture · Agri-finance & cooperatives · Food safety & GAP
NGO & Development	Resource mobilisation · Localisation & partner capacity · Safeguarding & PSEA · Staff safety & duty of care
Education	Digital skills programmes · Leadership for school and university managers · Data protection
Enterprise & SME	Strategy & growth · Digital transformation · Sales & customer retention · Financial analysis for managers

LOCAL REGULATION
Courses are mapped to your country's requirements, with case studies your staff will recognise.

INTERNATIONAL STANDARDS
Content references global bodies so it holds up in front of auditors and your board.

YOUR CONTEXT
We use your own products, systems and policies as case material wherever possible.

06 · PROGRAMME FORMATS

Ways to Train With Us

Our programmes are fully adjustable to your needs, and our courses can be divided into multiple groups so every team trains at the right time and level.

Executive & Board Programmes

Intensive programmes for boards, executive committees and senior leaders on governance, strategy, risk and leadership, delivered by senior international faculty.

DURATION
Set by your goals

GROUP SIZE
Small, senior cohorts

In-House Corporate Programmes

Courses built for one organisation and run for your teams at your premises or online, using your products, systems and policies as case material.

DURATION
Set by your goals

GROUPS
Divided into multiple cohorts

International Delegation Programmes

Programmes for delegations that combine classroom learning with exposure to practice abroad, adapted to the language, infrastructure and regulatory context of each group.

DURATION
Set by your goals

LOCATIONS
Seven countries to date

Capability Academies

A longer journey that builds a function's capability step by step, combining courses, coaching, applied projects and assessment.

DURATION
Set by your goals

BEST FOR
Leadership pipelines, transformation

Annual Compliance Cycles

Your yearly mandatory training, refreshed with the year's developments and delivered with completion and attestation records for your auditors.

DURATION
Set by your goals

GROUPS
All relevant staff, in groups

Delivery options

On-site

Face-to-face at your premises or a venue we arrange. Best for labs, simulations and team exercises.

Remote

Live virtual sessions led by our facilitators. Best for teams across branches or countries.

Blended

A mix of both, so each module uses the format that works best for it.

07 · HOW WE WILL WORK WITH YOU

Our Methodology

We work in four stages, run the same way every time. A programme only holds if the sequence is right: we assess before we build, and we train while we build.

STAGE 1
Assess

We review your current skills, roles, policies and goals to find the highest-impact starting point for each group of participants.

STAGE 2
Design

We build the curriculum with your business and compliance leads, using your own products, systems and regulations as case material.

STAGE 3
Deliver

Specialist facilitators run your sessions on site, remotely or blended, with case studies, simulations and knowledge checks scheduled around your operating calendar.

STAGE 4
Sustain

Refresher sessions, completion evidence for your auditors, and a review that sets up next year's plan.

We systemise the predictable and focus on the exceptional

Logistics, materials, scheduling and records follow a standard process governed by our ISO 9001:2015 quality management system. That frees our facilitators to spend their time where it counts: on your people, their questions and the situations they face at work.

What stays fixed

- Our four-stage method and quality process
- Specialist faculty vetted for each topic
- Completion evidence your auditors accept

What we tailor to you

- Courses, depth and case material
- Schedule, session length and language
- Format, venue and group sizes

> ***Assess before you build. Train while you build. Sustain after launch.***

Designed Around the Brain

Our sessions follow the **AGES model** of learning, which identifies four conditions that help people remember and apply what they learn.

A

Attention

Focused, distraction-free sessions with clear objectives, short segments and regular changes of activity.

G

Generation

Participants build their own connections through discussion, case analysis and applying ideas to their real work.

E

Emotion

Realistic scenarios and simulations that matter to participants, so learning sticks.

S

Spacing

Learning spread over time, reinforced by follow-up refreshers.

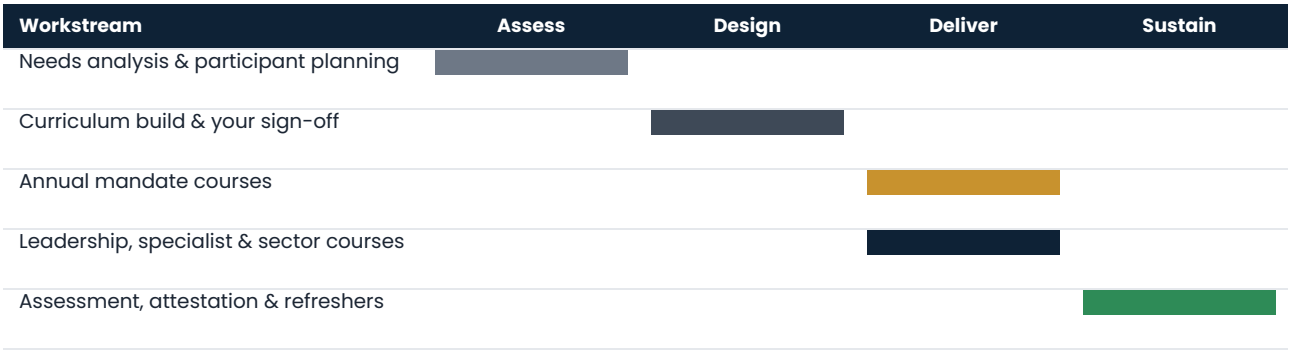

What a session looks like

- Instructor-led sessions, with several specialist instructors where the topic needs them
- Presentations supported by visual tools and job aids
- Discussion and dialogue that connect content to participants' roles
- Case studies, role-plays and simulations from your sector
- Knowledge checks before and after each course
- Certificates and completion records for every participant

> ***Through discussion and dialogue, we connect with, engage and involve every participant, because people apply what they help to build.***

A Typical Programme Journey

Every programme follows the same journey, while its length is set by your goals. Your plan, schedule and start date are agreed after the needs assessment. We schedule annual mandates (gold) early and run emerging-needs courses (navy) alongside.

Key milestones

STAGE	MILESTONE
Assess	Kick-off with your stakeholders, interviews and baseline knowledge check
Assess	Needs assessment shared; courses, groups, format, venue and start date agreed and signed off
Design	Your leads sign off content; first sessions begin
Deliver	Annual mandate training complete
Deliver	Final sessions complete for every group
Sustain	Completion report, attestation evidence and refresher plan handed over

BEFORE
Stakeholder interviews, baseline check and a signed-off plan, so nothing starts without your approval.

DURING
Attendance and progress updates after each course, with one named programme lead for you to call.

AFTER
Completion report, attestation records and a refresher plan that sets up next year.

09 · INVESTMENT

Your Investment

Fees depend on the courses, number of participants, format and location you choose. We confirm a detailed, fixed quotation after the needs assessment. Three ways to engage:

OPTION 1

Per participant

A fee per participant. Best for executive programmes and smaller cohorts.

Priced per participant

OPTION 2 · IN-HOUSE

Per cohort

A fixed fee per in-house cohort, up to an agreed group size. Best for in-house programmes.

Priced per cohort

OPTION 3

Annual programme

One fee for a full year of courses, mandates and refreshers. Best for organisation-wide plans.

Priced per programme

What you receive

- Needs assessment and baseline knowledge check
- Curriculum tailored to your sector, systems and regulators
- Specialist facilitator-led delivery
- Participant materials, job aids and certificates
- Completion and attestation records for your auditors
- Follow-up refresher sessions

What we assume

- Courses, duration, participant numbers and group sizes are agreed after the needs assessment
- Delivery format is agreed with you during the needs assessment
- For on-site sessions, we can arrange a venue for your sign-off
- Travel and accommodation for international programmes are quoted separately
- This proposal is valid for 12 months, until October 2027

> ***Every engagement, whichever model it starts as, ends the same way: your team able to run it without us.***

Why Choose Us?

Centred on you

Programmes scoped to your team, your budget and your regulatory environment, not a standard playbook.

Built to scale

Modular curricula that extend as you grow into new markets and business lines.

Regional fluency

Attention to local infrastructure, compliance regimes and talent across the UAE and Africa.

Certified quality

An ISO 9001:2015 quality management system governs how we plan, deliver and improve.

Specialist international faculty

Seasoned professionals in banking, finance, governance, risk, technology and leadership.

One accountable partner

Assessment, design, delivery and refreshers: one team from start to finish.

CERTIFICATION

ISO 9001:2015 Quality Management System

CERTIFICATE NO.

VSQC099-421263839

ISSUED BY

Veritas System Quality Certificates Issuing LLC, Dubai

SCOPE INCLUDES

Education and training; cybersecurity, data and IT services

Delivered in seven countries

Turkey · Singapore · UAE · USA · Canada · Ethiopia · Sweden

Our offices

Head office: Dubai, UAE
Partner office: Addis Ababa, Ethiopia

Two practices, one partner

Our IT consulting practice means trainers understand the systems and risks your teams work with every day.

11 · NEXT STEPS

From Proposal to First Session

This proposal is a starting point. Four short steps turn it into a programme built for your organisation.

01 **Discovery call**

A 30-minute conversation about your goals, teams and timelines.

02 **Needs assessment**

We meet your stakeholders, review roles and run a baseline check to find the highest-impact courses.

03 **Tailored proposal and quotation**

You receive a detailed proposal with course outlines, schedule and a fixed quotation.

04 **Sign-off and kick-off**

Once you sign off, we confirm faculty, venue and dates, and your first sessions begin.

To get started, tell us

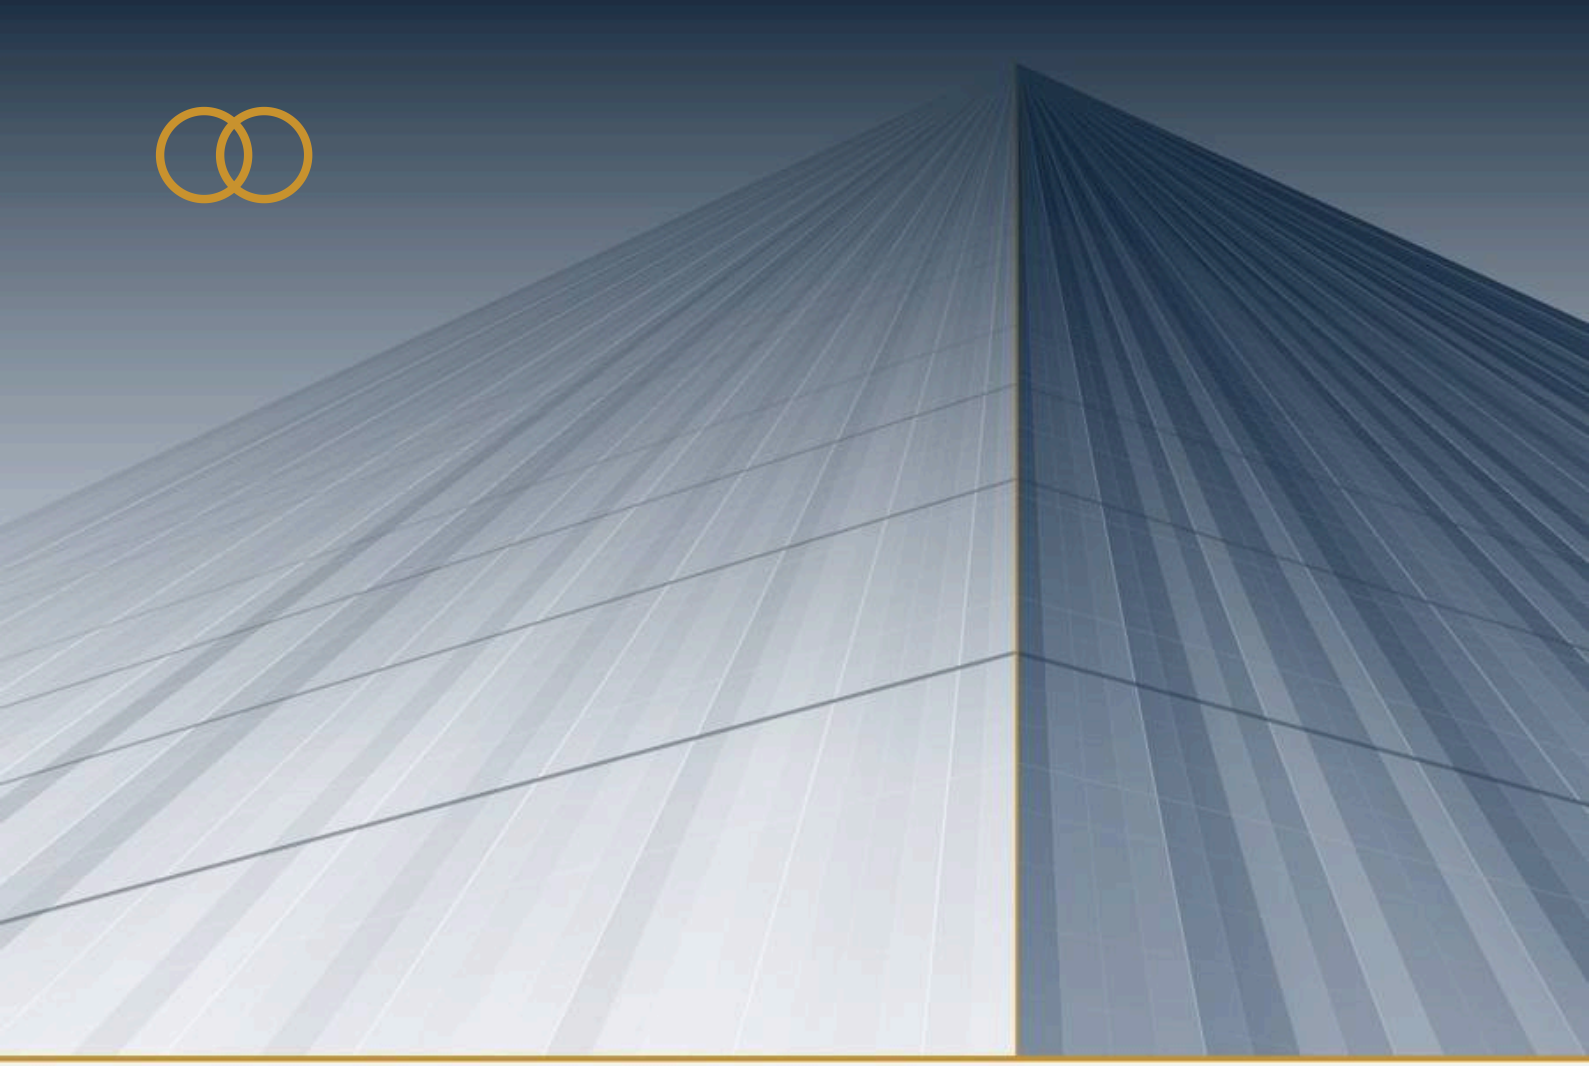

- Which teams or roles you want to train
- Approximate number of participants
- Your preferred format and location
- Your timeline and any regulatory deadlines
